Local Safety Belt Use Survey Worksheet

Instructions:

Observe at least 100 drivers and front passengers within your jurisdiction. Conduct this survey both before and after the Click It or Ticket campaign. For each occupant, mark "Yes" if they are wearing a safety belt or "No" if they are not. Count the total number of "Yes" responses to calculate your safety belt usage rate.

This form is for your agency's internal use only and does not need to be submitted. Use it to determine your pre- and post-campaign usage rates. After the campaign, report the percentage on your agency's campaign activity report at www.floridalel.info.

Example: If you observed 100 people, and 86 were wearing safety belts, your usage rate is 86%.
